PARIS - NEW YORK - LOS ANGELES, 20.08.2015, 18:54 Time

USPA NEWS - The Jungle Book (1894) is a collection of stories by English author Rudyard Kipling. The stories were first published in magazines in 1893""94. Nowadays, the Jungle Book is an upcoming American live-action/CGI film directed by Jon Favreau, written by Justin Marks, to be released on April 15, 2016 USA

Rudyard Kipling was born in India and spent the first six years of his childhood there. After about ten years in England, he went back to India and worked there for about six-and-a-half years. These stories were written when Kipling lived in Vermont. There is evidence that it was written for his daughter Josephine, who died in 1899 aged six. Kipling put nearly everything he knew or "heard or dreamed about the Indian jungle".

Initially an indie film favorite, actor Jon Favreau has progressed to strong mainstream visibility into the millennium and, after nearly two decades in the business, is still enjoying character stardom as well as earning notice as a writer/producer/director.
